

# Invitation to participate in a Palliative Care Victoria Project

**PalliativeCare**  
VICTORIA  
Living, dying & grieving well

Palliative Care Victoria have recently received funding from the Commonwealth and State government to undertake a project that will provide resources for families caring for someone living in a residential aged care home. We are interested in understanding what resources families would find useful to assist them in making decisions for a family member who may not be able to communicate their own needs and choices.

We are looking for volunteers who would be willing to share their experiences with us. This is not a research project and all information would be kept confidential and anonymous.

If you would like to participate or have any further questions, please contact Lynne or Tiffany on the details below. We can talk to you over the phone, meet face to face or organise an on-line conversation if you prefer.

Thankyou.
